

**RNDr. Bohuslav Růžek, CSc.**

\* May 8, 1955 (age 66)

1974 - 1979 - Faculty of Sciences, Prague

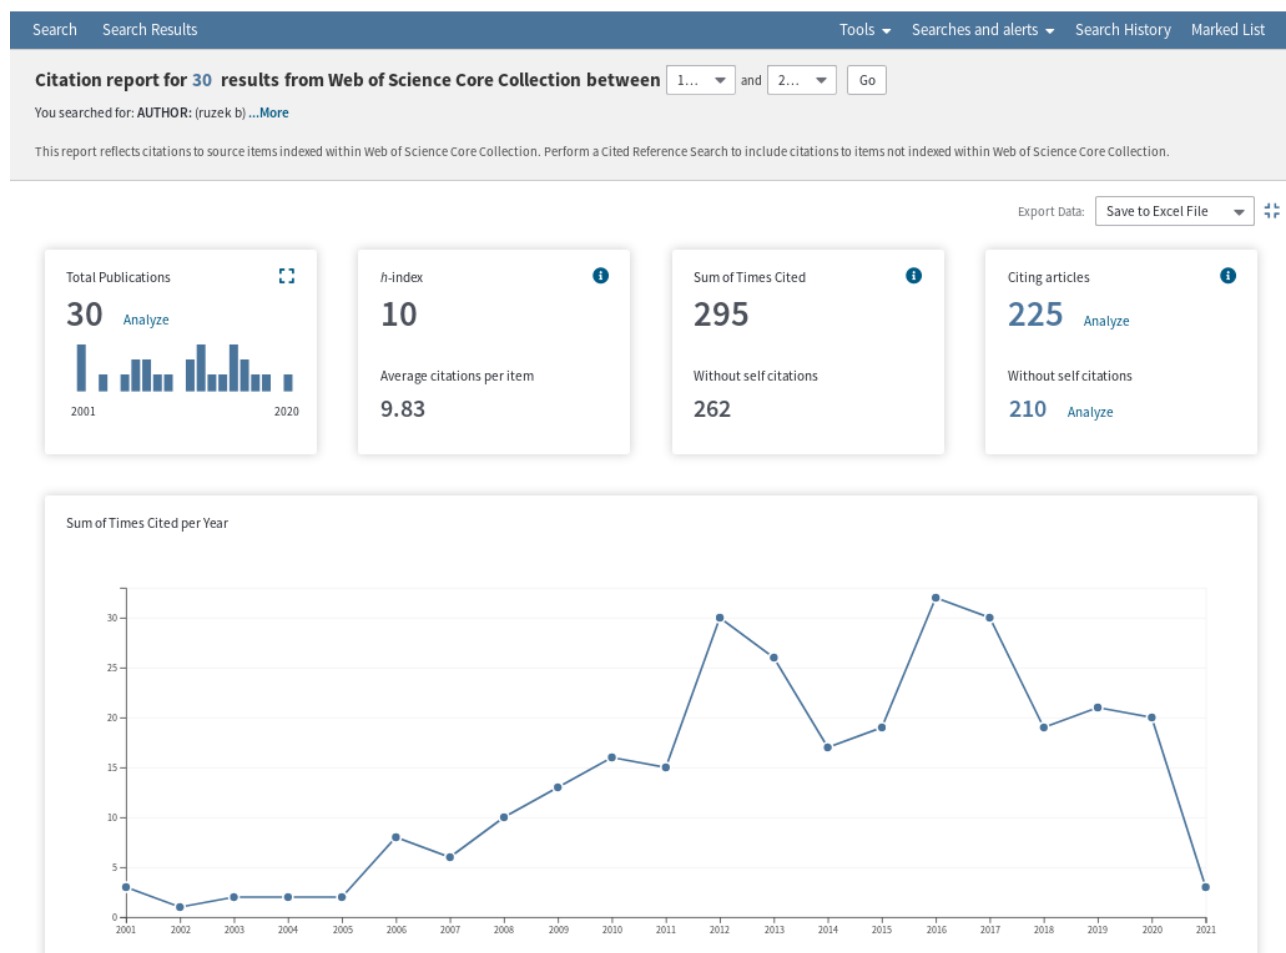

1982 - 1994 - Institute of Rock Structure and Mechanics (researcher)

1994 - now - Institute of Geophysics (researcher, deputy director, scientific secretary)

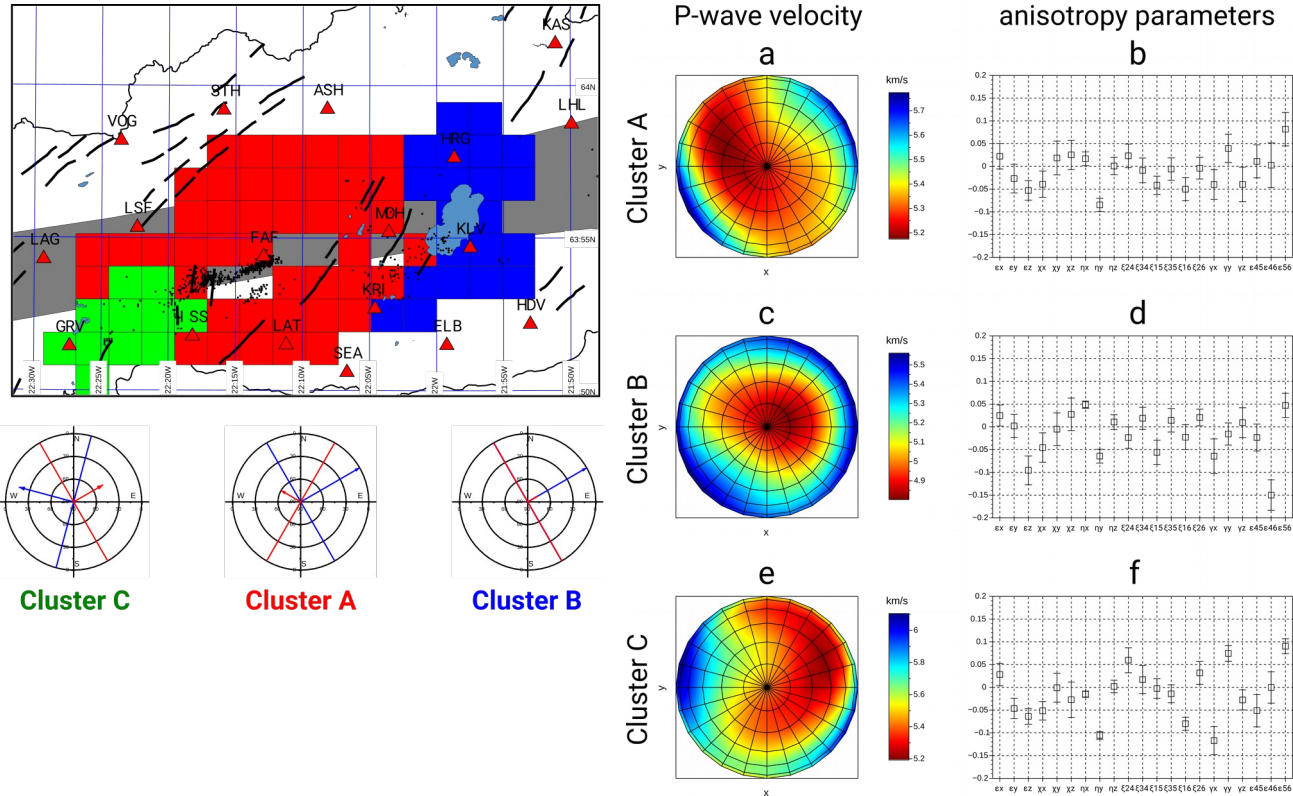

Professional interests:

- inverse problems (theory, methods, applications...)
- seismic tomography
- seismic noise processing

## Web of Science

**A. Latest work on anisotropic tomography in Reykjanes Peninsula**  
(currently under review in PAGEOPH)

**B. Seismic noise currently in study**
